

SIX LEVELS | MONEY WORDS IN ACTION

HOW TO PLAY

Read each sentence and choose the missing word from that page's word bank. Write it in the blank. Each correct word is used once per page. There are 10 choices for 8 sentences, so TWO words will not be used.

BUILD UP THE CHALLENGE

Start with everyday money actions, then move through shopping, banking, earning, borrowing and trickier money decisions. Read the whole sentence: some choices sound similar, but only one best fits each clue.

WHO CAN PLAY

Recommended for ages 9–14, with support for unfamiliar words. Play solo, with a partner, or in teams. A level takes roughly 5–10 minutes. You need a pencil; no calculations or word search grids are involved.

PRINT YOUR PAGES

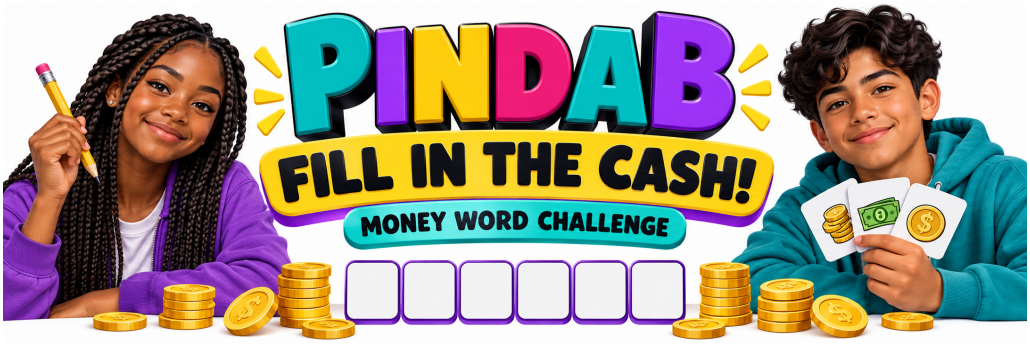

Pages 2–7 are the activities. Pages 8–10 are the answer key. Keep answers separate. Print on Letter paper at Actual Size / 100%, single-sided. Colourful PINDAB artwork and clear text work in colour or black and white.

SCORE YOUR MONEY KNOW-HOW

Earn 1 point for every correct blank: 8 per page and 48 in total. If a word is new, discuss it and try again. Getting familiar with the meaning matters more than finishing fast.

EXTRA CHALLENGE

After each level, explain one of the TWO unused words, or use it in your own sentence. Words with spaces or hyphens must be written in full. These activities teach introductory meanings; real money situations can have additional details.

LEVEL 1 | MONEY MOVES

WORD BANK | Use 8 words. Leave 2 unused.

REFUND	LOAN	WANT
DONATE	BUDGET	GOAL
SPEND	NEED	EARN
SAVE
